Art Basel Miami features over 1,000 artists represented by galleries from all around the world, providing a barometer for future activity at exhibitions and auction houses. Here's our pick of the contemporary artists whose work will be on show.

In explosive chromatics applied with shimmering brushwork, Fordjour explores the vulnerability within the human carnivalesque. His compositions are dramatic, his figures jocundly acrobatic, maybe stretched just a little too far beyond their comfort zone, so that the world of entertainment wavers between delight and despair.
